Working together to achieve

# Values and mindset

Name: \_\_\_\_\_

I found something difficult but I kept trying and did not give up.

Instead of saying 'I can't do this', I said 'I can't do this...yet!'

I made a mistake and learnt from it.

I know that I need to keep practising to get things right.

I tried my best.

I challenged myself.

I didn't give up (even when I might have wanted to)

I learnt how to do something new

When something did not work or go right I found a different way of doing it.

I worked well as part of a team with others.

Which of our Core Values does each statement link to?

Be kind, be resilient, be collaborative,  
be motivated, be respectful and be aspirational.
